Outskirts Press, United States, 2006. Paperback. Book Condition: New. 211 x 135 mm. Language: English . Brand New Book ***** Print on Demand *****.Astonishing answers to unspoken questions revealed! What is the book about? My life as a bi-vocational pastor for the past 9 years and the many roads, valleys and mountains I have had to face during this time. In fact, another title for the book might be Don't start a church unless you read this book. 2)Who is the target audience? Audience would first be to pastors and their respective spouses. Second tier audience would be members who really want to help their pastors not make the mistakes of others (including myself). A book for pastors who want to think things through before starting a church 3)What is the primary benefit? This book will tell the reader in essence its more than just God who helps start a church. In other words, you must consider the needs of your spouse and children. Also there are some legal points that must be dealt with before going into this field of work. This book will help senior pastors to think before they act without making this task so insurmountable. I have seen brochures and packets that could make a pastor feel more overwhelmed than they should be in starting a church from alpha. 4)What is the unique message? This book is different because it's not a PR book masked in biblical principals. In essence, it gives the pastor a point of understanding of how the church works. This book is for pastors who want to have integrity (not starting a church out of anger or malice) with not only there calling but their home as well. In a nut shell, this book is REAL. No sugar coating here....
