THE PLANT VIRUSES: THE ROD-SHAPED PLANT VIRUSES

Springer. Paperback. Book Condition: New. Paperback. 442 pages. Dimensions: 10.0in. x 7.0in. x 1.0in. This volume of the series The Plant Viruses is devoted to viruses with rod-shaped particles belonging to the following four groups: the toba moviruses (named after tobacco mosaic virus), the tobnaviruses (after tobacco rattle), the hordeiviruses (after the latin hordeum in honor of the type member barley stripe mosaic virus), and the not yet officially recognized furoviruses (fungus-transmitted rod-shaped viruses, Shirako and Brakke, 1984). At...

Reviews

It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Talia Cormier**

Thorough guide! Its such a very good go through. It is really simplified but surprises in the 50 % from the ebook. You will like how the blogger write this ebook.

-- **Mr. Brandt Kihn**

The publication is easy in read better to understand. It is written in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).
