Reviews

Great electronic book and useful one. It can be writter in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This is the fifty-second annual report of this service, covering the one hundred and twenty-fifth year of its existence. In conformity with existing law and the practice in past years, account has been taken of the prevalence of communicable diseases throughout the world and the state of the public health in our own country. Presumably because of unsettled economic, social, and political conditions abroad, certain communicable diseases have been widespread here and there in foreign countries In Russia typhus fever was reputed to be responsible for a large number of deaths. An endemic center of cholera existed in southwest Russia and there was apprehension lest its borders would be extended to other European countries. The prevalence of plague in many foreign countries continues and many foci were established in the Canary Islands, Mexico, and other places. Here and there in South America and in Mexico isolated outbreaks of yellow fever have occurred. Special attention has been paid, however, by the sanitary authorities of these countries to the prevalence of this disease and record of its spread has been carefully kept through reports of the Consular Service in these localities. Furthermore, the International Health Board has maintained an organization and conducted active preventive operations in cooperation with these countries. In consequence of the enforcement of the...
